

PART -> A

Q. Talk about a skill/internship/project that you have undergone in the past or are undergoing in the present.

You can say:

What is it all about?

What have you gained from the experience?

How is it going to help you in your career ?

ANS—

This past summer vacation, I completed a summer training project in c/c++ with boardsinfinity through online mode. It is all about c and c++ programming language and some mini projects like making digital calculator, Interactive scoreboard making online games etc with the help of C++ AND DSA. Bcoz of this training I have gained my skills in programming language that definitely helps to improve my coding and understanding the concepts of Data structure and algorithm and also I got a completion certificate in this which I use to add it in my resume that boosts my career.

And apart from that currently I am doing Data visualization in excel with international business machines(IBM). Its all about excel and its feature that helps me to gain the experience in Data science field and Excel and due to this I can do data analysis and boost my Data science carrer...

PART -> B

Q-1. Discuss the pros and cons of the new Agnipath scheme ?

ANS) Pros of Agneepath Scheme

- The soldiers, who will be relieved after the four-year services will be able to compete in the civil world as they will be assisted by the Indian army.

- The 'Agniepath' scheme opens the way for the recruitment of about 46,000 soldiers into the Army, Navy, and Air Force in the first year.
- 25% of the staff will be retained after 4 years which means lakhs of candidates will ultimately get permanent jobs.
- The Indian army will have the option of retaining a few of them and they can serve the nation as permanent soldiers.
- Agniveers will receive a one-time "Seva Nidhi" package at the end of their four-year engagement,
- Many corporate sectors and big MNCs have shown interest to hire "Agniveers".
- This will be a great opportunity for the candidates from the age limit minimum of 17.5 to a maximum of 23 years
- Agniveer, a recruited youth for a Four years of service, would have bright career options after serving in the armed forces.
- The Scheme May Also Be Beneficial For Agniveers' Personal Development. They will be exposed to the disciplined lifestyle of the armed forces.

Cons of Agneepath Scheme

- There is no job security as the candidates will again become unemployed after the 4 years of service.
- This recruitment is only for 17.5-23 years of candidates.
- Agniveers will be cautious and most of them will be seeking a second job.
- There will no extra or basic benefits will be provided to the candidate alike the other government jobs.
- Once the soldiers will complete their four years tenure then 75% of the them will be relieved from service, it will be unfair in a way with their future.
- No pilot scheme to evaluate the plan.

Q-2. New Education policy 2020: Will it bring a change in the way education is provided in the country?

ANS) NEP2020 aims to recognise the need to evaluate "higher order skills" such as creativity, critical thinking, problem solving, visualisation, and idea generation.

Framing Mother Tongue / Regional Language as a means of instructions

It is a very respectful gesture to implement mother tongue in the New Education System. With this concept, the education system is aiming to not only promote the mother language but also giving importance to the different regional languages.

Various options for the students at the Undergraduate level

They can aim at completing their desired courses in 1 year getting a certification over a period of time, Diploma for completing any 2 year course and then degree courses of 3 or 4 years. It will also help the students to choose the best course on the basis of their capabilities.

Providing Equal Education to Every Gender and Category

This idea is to promote education to every gender, caste, category and disability. Everyone is equal in terms of getting proper education. Education is a right and power of every child in this world.

Q-3. What are the challenges India faces on the road to become developed?

Ans-)

- Corruption. The most widely spread endemic in India is corruption, which must be handled quickly and wisely. ...
- Illiteracy. The percentage of illiteracy in India is alarming. ...
- Education System. ...
- Basic Sanitation. ...
- Healthcare System. ...
- Poverty. ...
- Pollution. ...
- Women's Safety.

Q-4. Reasons for unemployment in the country.

Ans) **The Caste System**

- In some locations, certain kinds of work are prohibited for members of particular castes. This also leads to the result that work is often given to members of a certain **community**, rather than to those who truly deserve the job those who have the right skills
- The result is higher levels of unemployment

Inadequate Economic Growth

- This means that as the population increases, the economy cannot keep up with demands for employment and an increasing share of people are unable to find work. The result is insufficient levels of employment nationwide.

Increase in Population

- As the country's economic growth **cannot keep up with population growth**, this leads to a larger share of the society being **unemployed**

Job Specialization

- Jobs in the capitalist world have become **highly specialised**, but **India's education system** does not provide the right training and specialisation needed for these jobs. Thus many people who are willing to work become unemployable due to lack of skills.

Lack of essential skilling

- A study reveals that 33% of educated youth in India are unemployed due to a lack of future skills
- Millions of students in our country even after finishing schooling, remain devoid of hands-on learning and robust practical knowledge

Agriculture is a Seasonal Occupation

Loss of Small-Scale/Cottage Industries

Q-5. How can the unemployment problem be tackled?

Ans) **(i) Change in industrial technique**

(ii) Policy regarding seasonal unemployment:

Seasonal unemployment is found in agriculture sector and agro based industries.

(iii) Change in education system:

Educational pattern should be completely changed. Students who have liking for higher studies should be admitted in colleges and universities. Emphasis should be given on vocational education. Qualified engineers should start their own small units.

(v) More assistance to self employed people:

Most people in India are self employed. They are engaged in agriculture, trade, cottage and small scale industries etc. These persons should be helped financially, providing raw materials and technical training.

(vii) Increase in Production:

To increase employment, it is essential to increase production in agriculture and industrial sectors. Development of small and cottage industries should be encouraged.

(viii) More importance to employment programmes:

In five year plans more importance should be given to employment. The programmes like irrigation, roads, flood control, power, agriculture, rural electrification can provide better employment to people.

(x) Industries in co-operative sector:

Industries in co-operative sector should be encouraged. Kerala Govt.' set up a textile mill covering 600 unemployed persons on co-operative basis. This is a novel approach to fight against unemployment. Different State Govt. should take necessary steps in this direction.

(xii) Population control:

The growth of population should be checked in order to solve unemployment, problem. Family planning programme should be implemented widely and effectively.

Q-6. Why is Women's cricket not as popular as Men's cricket?

Ans) Because..lets face it..its boring compared to men's cricket. and not only cricket, most of the sports are boring when it comes to female counterpart of it. There is a reason behind it. You grow up generally watching the men's version of it from starting. The intensity, the speed, the strength, the agility..naturally men are gifted in that sense by nature. You grow up watching Brett Lee smashing helmets at 155 clicks, and then there is Jhulan goswami bowling at around 120 clicks. I certainly mean no offence but its the fact.

Talking about media giving attention...the more interest the audience show, the more attention it will get. and clearly audience are more interested in men's version.

a) Historical imbalance

Men developed cricket in historical times to showcase their own masculinity and male characteristics. It was to be played at the exclusion of women. As a result, men have always tilted the game in their favour and the favour of the already existing patriarchy. For any sport to succeed it needs resources as well as viewers. The

former was non-existent for women's cricket associations due to the male dominated control over the game. This resulted in the latter suffering as well.

b) Lack of Resources and Viewers

Attracting new viewers is difficult due to a lack of resources. Indian men playing cricket matches is promoted on social media platforms as a priority. This is such that even non-cricket lovers are aware of a match. Women cricketers on the other hand lack popularity on social media

Q-7. Women Empowerment & Safety. Discuss the challenges & solutions.

Ans) 1. Selective abortion and female infanticide It is the most common practice for years in India in which abortion of female fetus is performed in the womb of mother after the fetal sex determination and sex selective abortion by the medical professionals.

2. Sexual harassment.
3. Dowry and Bride burning
4. Disparity in education
5. Domestic violence
6. Child Marriages Early marriage of the girls by their parents in order to be escaped from dowry
7. Inadequate Nutrition
8. Low status in the family
9. Women are considered as inferior to men
10. Status of widows

Soln—

4. Invest in a small business owner.

Through [World Vision microloans](#), you can connect with hardworking female entrepreneurs who are waiting to realize their dream of building or expanding a successful business. A small loan is all they need. Even better, when the loan is paid off, your donated funds are recycled again and again to help more people and make a bigger impact.

5. Use your voice to help keep girls in school.

When girls stay in school and finish secondary education, [a lot of good things happen](#) for them and their families. They enjoy better health and can take care of themselves and their children. They live longer, marry later, earn higher wages, and are more active participants in community life.

Yet, [129 million girls](#) ages 6 to 17 are out of school. Your support for the [Keeping Girls in School Act](#) can help more adolescent girls around the world to stay in school and receive a high-quality education.

Q-8. Is the Media biased?

Ans) Media bias relates to the bias or perceived bias of journalists and news organisations in mass media. It normally implies a widespread bias that impacts the standard of journalism, rather than bias in the perspective of one journalist or article.

Media bias can affect the selection of events and stories that get published, the perspective from which they're written, and the language chosen to tell them.

In some countries, media bias can go so far as to completely reflect the ideals of the governing body, for example, in North Korea. In cases such as this, media bias essentially becomes [propaganda](#).

Q-9) Should freebies be given to the people by the government?

Ans) a/c to me yes bcoz it helps poor people and helps in country growth also

Like farmers, daily worrkers, labours etc

Facilities like ration shop, free food/meal in govt school, free bus services, etc

Q- 10. Give your views on privatization of Electricity in India

Ans) Privatization would improve operational efficiencies and allow prices to be set at market rates. Incentives to overconsume power would be ended. Privatization would increase transparency.

We got good electricity backup in summers that doesn't affects our daily normal life.

Q- 11. Should we switch to electric vehicles?

Ans) 1. They are better for the environment.

2. They're just as safe—if not safer.

Research has increasingly shown that electric vehicles are at least as safe as gasoline- and diesel-powered cars.

3. They are cheaper and easier to maintain.
4. You'll no longer have to pump gas—or spend gas money.
6. The total cost of ownership is lower than gas-powered cars.

Q- 12. How safe is our information on the internet?

Ans) all information available on the internet are not secure as it should be. There is no 100% secure system or individual piece of information. Using right combination of online services we can improve security of our information and bring it to the next level but never secure them 100%. Most of the apps provides security like google,amazon but most of them are not..

Q- 13. Should trees be cut for development projects?

Ans) Trees play an important role in producing oxygen and absorbing pollution or carbon dioxide from the atmosphere, moderating ground temperatures, protects water resources etc. Trees are assets to your home and community. Without trees, we can not live in this environment or earth.

Preserving trees in developments increases a project's attractiveness, monetary value, and marketability by providing aesthetic and functional values.

Tree Preservation Takes Place Over Time

Preconstruction

- Tree inventory
- Planning, design, negotiations
- Removals
- Staking of construction footprints under trees—required limb pruning
- Insect control or other care
- Fencing preserved trees

Q- 14. Can Single use plastic ban help in conserving the environment?

Ans) patially yes

Single-use plastic items make up about one third of the volume of Victoria's litter. **Plastic pollution harms our health, wildlife and the environment and attracts significant clean-up costs.** Many single-use plastic items are difficult and economically unviable to recycle.

Q- 15. India is a land of Unity in diversity. Discuss

Ans) When we say that India is a nation of great cultural diversity, we mean that there are many different types of social groups and communities living here. These are communities defined by cultural markers such as language, religion, sect, race or caste.

Unity in diversity means **oneness in the varieties**. India is the best country proving this concept for many years. India is a country where it is very clear to see unity in diversity because people of many religions, race, cultures and traditions live together.

Q- 16. Should there be boundaries between nations?

Ans) **Borders determine how far a government's power reaches**. People within a country's boundary have to follow its laws and pay its taxes. If they move or travel to another country, they'll need to know and abide by the laws set there. Some borders separate people who have different ways of life

Why is it important for countries to have boundaries?

They separate countries, states, provinces, counties, cities, and towns. A border **outlines the area that a particular governing body controls**. The government of a region can only create and enforce laws within its borders. Borders change over time.

Q- 17. Is boycott culture good for the country?

Ans) It is perfectly fine and rightful to express your views, whether they are in favour of something or against it. What is not okay is when people try to shove down the same opinion down other people's throats.

But we have to be cultured when we are in our country that's balance the integrity in nation..

Q- 18. Do you think Freedom of speech has been curtailed in India?

Ans) **All citizens shall have the right to freedom of speech and expression**. This implies that all citizens have the right to express their views and opinions freely. This includes not only words of mouth, but also a speech by way of writings, pictures, movies, banners, etc.

Curtailed means khattoti

Q- 19. Can the reservation system be removed?

Ans)yes bcoz eligible person deserves some seat

The argument of people in this is that it has been more than 70 years of independence since so people are enjoying reservations to a large extent but the reservation of seats on the basis of caste is not a necessity as such in today's time considering the status of everyone. The main purpose is not to blame reservation for minorities but to overcome the lack of job opportunities that have been generated because of the reservation policies especially on the basis of caste.

Reservations nowadays based on caste is something which is against society and its interest. This type of reservation is spreading hatred in the society and creating a feeling of inequality amongst each other which is totally contradictory to the purpose of reservation.

Q- 20. Are Stock markets a true indicator of the Indian growth story?

Ans) **The stock market is often a sentiment indicator that can impact gross domestic product (GDP) either negatively or positively.** In a bull market—stock prices are rising—consumers and companies have more wealth and confidence—leading to more spending and higher GDP

In the event of a bull market or a rise in the prices of stocks, **the overall confidence in the economy increases.** People's spending also increases as they become more optimistic about the market. More investors also enter the market and this feeds into greater economic development in the nation.

Q- 21. What is your greatest failure, and what did you learn from it?

Ans) *“I personally feel that failures shape you in a vital way. I have had my share of failures or mistakes in my life. The most significant one was at the beginning of my college*

On 1st sem I didn't attempt anything/// or about IIT JEE preparation...I take it very lightly

Q- 22. What do you like about the person whom you are inspired by? Talk about the achievements of the person? How has the person affected your life?

Ans) My mom and dad are my best inspiration ever who work hard for our career and never demand anything from us only they want their child to be a successful in their life.

Everyone get inspired by their parents because they see their parents from childhood, How they work hard for better future, How to manage all things around us?

They always motivate you, Always supports and encourage you for your next step, And they always teach you how to face difficulty.

Q-23) Describe your hometown. What is special about it? Compare it to other cities in the world?

1. Ans) **Describe your hometown.**

-My hometown is a small city. It is both **traditional** and **modern** because of having several festivals celebrated by the locals, and at the same time it is starting to be developed with increasing number of **infrastructures** and **establishments**.

2. **Where is your hometown located?**

3. **What is it known for?**

-It is known for “Pili nuts”. They are said to grow in volcanic soil.

5. **What do people in your town do?**

–**Agriculture** and **fishing** are common in my hometown. Also, with the latest modernization, numerous **office jobs** have appeared in my town.

Q- 25. What kind of music do you like? When do you listen to it? How does it change your mood?

Ans) I like slowed+reverb(slowing the song down and adding a reverb effect

LOFI(low fidelity)

While making notes nd when I am frustrated or my mood is not good..

Also while travelling...

Music has taste or feeling that changes mood suddenly

Q- 26. What are the different means of communication? Which is your favorite means of communication? What are the advantages and disadvantages of using it?

Ans) Communication is the act of sharing or transferring information between two or more individuals or a group of people. Technically, each communication process requires a sender, a recipient, a message and a medium. The transmission of a message often has emotions and cultural significance attached to it. Due to differences in perception and understanding, the receiver at the end of the communication chain may not interpret the message in the same way as intended by the original sender. This is the reason why employers look for candidates with good communication skills who can convey ideas and messages accurately and effectively.

1. Verbal communication
2. Nonverbal communication
3. Written communication
4. Visual communication

Written talk less focus on topic more...

Q- 29. Why do people wear uniforms? Have you ever worn a uniform? What role does uniform play in a person's life

Ans) Uniforms **help them stand out of the crowd so that they can be easily recognizable and also distinguish them for the service they do.** These uniforms not only make them feel proud but also have an imposing effect on others as the presence of a person in uniform can change the mood and demeanor of people around them

Yes in school and college

What role does uniform play in a person's life?

Not only do uniforms **physically protect employees from harm, they also provide security**. Depending on the nature of your work, there can be many risks within the workplace, so it is important that your employees are wearing the appropriate uniform that keeps them safe

Q- 32. Which is your favorite electronic device? When do you use it? How do other people make use of it?

Ans) My favorite electronic device is a laptop. I am not exaggerating by saying that I cannot live without it. When I did not have it I never thought it would become such an important thing in my life, but when I started using it I realized that I could not live without it. I use a Dell laptop and it is very beautiful, apart from being beautiful it has a lot of functions and features which have made my life easier.

I use my laptop all the time and I carry it with me at all times. The main reason I use the laptop is that I am running my own website and for that reason I have to look at the website statistics at all times. If I do not use my laptop, I would not be able to operate my website. I also use the laptop when I have to talk to my friends or when I have to check e-mail. I have some friends who live in other cities so when I feel that I am missing them, or I feel that I should keep in touch with them then I talk to them on skype.

Laptop is an electronic device which has not only made my life better, but also the life of many people has become better. People have been able to communicate in a much better and faster way and the communication done via the laptop or internet is mostly free. At first it was considered to be a luxury, but thanks to the modern technology it has now become affordable to everyone.

Q- 33. Describe a sports event you attended? What was the best part about the sports event? Explain

Ans) I played kabaddi at state level and won the medal too in that sports...

Best right side defender of my team

Q- 34. Which is your favorite website? Why is it your favorite website? How often do you use it? What would your life be without it?

Ans) **Google.com**. Google is easily the most visited website globally, for a good reason. It is the most utilized search engine in the world. It's so popular that searching, whether a user uses Google or not, is now called "googling".

And youtube

Q- 35. What are the common diseases in your country? Is healthcare expensive in your country? How should the government deal with this problem?

Ans) **The diseases, for which maximum health insurance claims are taken, include:**

- Cardiovascular diseases.
- Respiratory diseases.
- TB.
- Tumors and malignant.
- Digestive diseases.
- Fever and infections (especially malaria)
- Unintentional Injuries.
- Diarrheal Diseases.

Q- 36. When do you do the exercise? What exercise do you do? How do you feel after doing exercise?

Ans) last time I did in lockdown period when I was in 1st year..

Jogging and stretching

Tired but energetic and fresh minded..

Q- 37. Which newspaper do you read? What part of the newspaper do you like? How often do you read the newspaper?

Ans) generally Hindustan my local state newspaper and times of india

Sports and general knowledge part

1 days in week or month.. now I got latest news in my mobile phone only

Q- 38. Talk about the kind of accommodation you live in? How long have you lived there? What do you like about living there? What sort of accommodation would you most like to live in?

Ans) **Q. 1. Tell me about the kind of accommodation you live in?**

Answer: I live in a 3-bedroom apartment which has an area of about 1800 square feet. The apartment is located on the 2nd floor in a busy area at the heart of the city. It also has two balconies, one spacious kitchen and one large sitting room.

Q. 2. How long have you been lived there?

Answer: I have been living in this apartment for almost 8 years since the time my father moved into this big city because of choosing a new career.

Q. 3. What do you like about living there?

Answer: There are not exactly too many things to like about living at my current residence except that shops and public transportation are very close by. There is one more thing, which I like, about the apartment in which I live, is that it receives enough light from all direction through its windows.

Q. 4. What sort of accommodation would you most like to live in?

Answer: I would like to live in an accommodation which would preferably be located in a

suburb by a lake, neither too far from or too close to the hustling-bustling of the big cities, surrounded by some beautiful green landscape. And my preferred accommodation would be really spacious and receive enough light and air from all directions.

Q- 39. Describe something you own which is very important to you. Where did you get it from? How long have you had it? What you use it for; and explain why it is important to you.

Ans) Electric steel kettle

From online shopping app flipkart

More than 3 months

For making my breakfast item like soups,tea,noodles etc

I got my breakfast and sometimes lunch from it so its imp for me

Q- 40. Do you think advertising influences what people buy? Is it right to say that 'All that glitters is not gold.'

Ans) First of all it is a nice question . Now my views are such that **it is not completely true but true upto some extent .**

Today is a competition market . Everyone wants to become more popular . So they show their item better than others . Actually advertising is a part of marketing . In advertisements ,**it becomes trend to show your product better than it actually is .** I believe it is all due to competition . And the motive is to increase the customers interest towards the product that's why they show their product with too much glitter . But **it is wrong to say that it is completely fake as 70–80% of it is correct .**

Now what you have to do is you should not have complete faith on any advertisement . Analyse your product and make decision after having confirmation that the product is OK .

Q- 41. What is your principle in life? What is your philosophy of life? How does your philosophy of life help you in your routine life?

Ans) My principle in life is simple : enjoy every day to its maximum extent. Do what you want being ignorant of the world. Friends, family and relatives make your life easier and beautiful. Preserve them like jewels.

My philosophy of life is that life is a rare chance to make a positive difference in the world and to do something you would be acknowledged for. But not on the cost of your dignity and self. Meeting and being friend with new people is something I like to do but trusting only close friends makes life easier for me. Expectation and trust can hurt you badly if you invest these on wrong person. What I have learnt in this short life of mine is that your Family is the best option you have in any situation. It makes life much easier and convenient to go on.

Q- 42. Elaborate “ Jai Jawan Jai Kisan Jai Vigyan Jai Anusandhan”

Ans) Jai Jawaan, Jai Kisaan, Jai Vigyan, Jai Anusandhan (by [Narendra Modi](#), Prime Minister)

PM Modi speaking on "Future India: Science and Technology" at the 106th Indian Science Congress at [Lovely Professional University](#), Jalandhar, added Jai Anusandhan "hail the research" to the famous slogan of Jai Jawan, Jai Kisan and Atal Bihari Vajpayee's Jai Vigyan to emphasize the importance of research work for the national development

Mr. Modi also said that a strong research ecosystem must be developed in these universities and colleges. “I call upon the Prime Minister’s Science, Technology and Innovation Council to discuss these issues in detail and formulate an action plan in consultation with the Ministry of Human Resource Development to boost research in our colleges and state universities,” he said.

Q- 43. What types of activities do you think help people stay healthy?

1. Ans) I eat whole, healthy foods and very rarely eat in a restaurant. I prefer to prepare my own meals so I know exactly what I’m eating. Plus, I enjoy cooking.
2. I drink about a gallon of water per day.
3. I exercise almost daily, unless I feel that my body needs rest. Usually, I briskly walk/jog, or use the elliptical. I also use a core trainer, resistance bands and weights. I’ve made exercise a part of my daily routine
4. I try to get proper sleep; at least 7–8 hours. This one is a bit hard because menopause is affecting my sleep somewhat.
5. I protect myself with vaccinations, medical check-ups, dental visits, and preventive care.
6. I have a daily skin care routine to keep my skin looking young and fresh!
7. I keep a really positive attitude, spend lots of time with my family

Q- 44. Give your views on Reforms in the judicial system

Ans) Judicial reform is **the complete or partial political reform of a country's judiciary**. Judicial reform is often done as a part of wider reform of the country's political system or a legal reform

How do you reform the judicial process?

Here are a few suggestions for the reformation for the judiciary system in India.

1. Improve District Courts.
2. Increase judicial capacity.
3. Court management.
4. Case management.
5. Infrastructure.
6. Faster trial.
7. Merit appointment.
8. Better investigation.

Q- 45. Share your point of view on Privatization of public sector banks?

Ans) Reason for privatisation

There are numerous reasons behind the privatisation rationale with the declining economy being the primary and the most important reason. The Indian economy has been severely hit by the ongoing pandemic due to which the government has taken such bold steps of disinvestment. The rising NPA problem has also become a driving factor for the privatisation drive. The biggest contributors of NPA are the PSBs due to their welfare state schemes and loan waivers etc. The government, through the privatisation of PSBs seeks to minimise the NPA issue and ease the burden on the PSBs.

- **Issue of accessibility**
- **Inclination towards profit-making**
- **Private players are prone to failure**

Q- 46. What do you understand by Sports as a career in India?

Ans) "Sports is **one of the rewarding career options of the country with lots of job opportunities**". Sports opened up many career opportunities for young talents in India. To become a sports person, having a talent in the chosen sport is very important. Along with talent, Strong determination and perseverance is needed.

What is sports as a career in India?

Among the many profiles you could opt for are - **sports event manager, professional player, physical education instructor, coach and umpire or referee**. Internationally, the demand for professional sports managers is increasing, and hence, the career is expected to reach its peak in the years to come

Is sports good career in India?

Sports career in India has turned out to be one of the most prominent careers due to the wide range of jobs being offered to students under these courses. Also, the job opportunities under sports careers in India are not limited to only athletics, as there is scope for people in non-athletic fields too.

Q- 47. Explain Caste discrimination in India

Ans) What are the caste issues in India?

Caste divisions in India dominate in housing, marriage, employment, and general social interaction-divisions that are reinforced through the practice and threat of **social ostracism, economic boycotts, and physical violence**.

What is the main reason for caste discrimination?

Lack of unrestricted choice of profession, caste members restricted their own members from taking up certain professions they considered degrading.

How does the caste system affect India?

The Caste System of India. **Caste not only dictates one's occupation, but dietary habits and interaction with members of other castes as well.** Members of a high caste enjoy more wealth and opportunities while members of a low caste perform menial jobs. Outside of the caste system are the Untouchables.

Q- 48. Do you think the future of farming is organic? Discuss

Ans) Is organic farming the Future?

Although organic farming will not be able to feed a growing global population and its increasing demand for livestock products, there is no doubt that **the organic food market still has a bright future.**

It is future bcoz **It enhances soil fertility and biological diversity.** It saves the soil and the earth from chemicals. Lack of organic matter also makes the soil more prone to drought. Conventional farming ignores the long-term impact on soil quality and is storing problems for future generations.

Q- 49. Do you think Clean India paves way for a better India? How

Ans) Cleaning not always means the cleaning the roads or sweeping the streets but it means cleaning ourselves from within. The policy says "clean India" not "clean Indian roads". We should always make this country corruption free, terrorism free and also dirt free.

Swachh Bharat Abhiyan which was started by our prime minister Narendra Modi is a very positive step. It includes not only cleaning our surroundings but also it involves the cleaning our negative mindset, bad thoughts, the negativity around us. Not only dirty surroundings make us feel sick, it is also the fraudulence in us. So we clean our thoughts... We move forward to have a clean India

Q- 50. Do you think health is important? If yes, why?

Ans) Being healthy should be part of your overall lifestyle. Living a healthy lifestyle can help prevent chronic diseases and long-term illnesses. Feeling good about yourself and taking care of your health are important for your self-esteem and self-image.

Health is a state of complete physical, mental and social well being. For a healthy life cycle, a person needs to have a balanced diet and has to regularly exercise. One must also live in a proper shelter, take enough sleep and have good hygiene habits.

Good health is central to handling stress and living a longer, more active life
